

JOHN LYON HAVLIK

Computational Addiction Psychiatry | Applied Machine Learning | Psychiatric Services Research
jhavlik@stanford.edu

RESEARCH SUMMARY

Nationally recognized physician-scientist and psychiatry resident at Stanford developing and validating machine learning algorithms to identify and engage patients with proactive psychiatric care. Author of 43 peer-reviewed publications including first-author work in JAMA Network Open, JAMA Health Forum, and one accepted at Nature Mental Health; technical lead on supervised ML modeling for EHR-based SUD detection. Founder of the Research Roundtable mentorship initiative, which has produced 10+ peer-reviewed publications and \$125,000+ in grant awards for underrepresented future physicians and scientists.

RESIDENCY

Stanford Medicine

Psychiatry Resident (Inaugural Humanities and Social Medicine Research Track Resident)
June 2024 - Present

EDUCATION

Medical School

Yale University School of Medicine
August 2019 - May 2024
Degree: M.D.

Business School

Yale University School of Management
August 2022 - May 2024
Degree: M.B.A.

Undergraduate

The University of Chicago
August 2015 - June 2019
Degrees: B.S. Neuroscience with Honors; B.A. Biological Sciences

HONORS & AWARDS

Postgraduate:

2026-2027	American Psychiatric Association Research Fellowship (one two-year fellowship awarded nationally, selected from faculty and residents, \$45,000/year funding for mental health services and policy research)
2026	National Institute of Mental Health Outstanding Resident Award (for outstanding contributions to mental health research, NIMH's highest trainee honor, 1 of 12 in country)
2025	William and Katharine Duhamel Addiction Medicine Grant Recipient (\$23,220) for "Integration and Application of an AI Model for Substance Use Disorder Screening"; Mentor: Keith Humphreys, PhD
2024-Present	Inaugural Humanities and Social Medicine Research Track Resident, Stanford Department of Psychiatry (physician-scientist track with funding/protected time for research in translational and clinical medicine)

Graduate:

2019-2024:	Class President, Yale School of Medicine Entering Class of 2019
2022:	Liaison Committee on Medical Education Student Accreditation Co-Chair
2022-2024:	Dean's Merit Scholarship- Yale School of Management, for quantitative methods in operations research
2023-2024:	Robert Malison, M.D. Student Research Fellowship
2023:	Lowe Award for Published Research, Yale School of Medicine
2021-2022:	Yale School of Medicine Medical Education Steering Committee Member
2020:	Yale School of Medicine Mission Statement Committee Member
2020:	Judges' Choice Award, Creating Healthcare Ventures, Yale School of Management
2019:	Yale Sustainable Health Initiative- 2nd Place Team

Undergraduate:

2019: Finalist, College New Venture Challenge, University of Chicago Booth School of Business
2018: Second Place, National Students with Drive Competition sponsored by Ford and Zipcar
2017: First Place, Chicago Health Solutions Healthcare Case Competition - Asthma Management
2017: First Place, Chicago Health Solutions Healthcare Case Competition - Congestive Heart Failure
2016-2018: University of Chicago Metcalf Scholarship
2015-2019: University of Chicago Dean's List
2015-2019: National Merit Scholarship, University of Chicago Scholarship, American Chemical Society Scholarship

RESEARCH

Research Roundtable

Founder

2022-Present

- Apply management, research, and medical knowledge to mentor underrepresented in medicine and first-generation low-income undergraduate students from the University of Chicago in computational psychiatry and psychiatric health services research; collaborate with experts in field on interpretation of findings
- Students assist with database creation, literature review, results interpretation and contextualization; learn grant writing (\$125,000+ obtained for mentees in 30+ applications)

- Work has resulted in over ten publications with mentee authorship, including in the JAMA, APA, and BMJ journal networks; other manuscripts submitted and in preparation

Laboratory of Robert Rosenheck M.D., Professor of Psychiatry

Researcher

February 2022– May 2024

- Conducted mental health services research with nationally-recognized leader in the field of psychiatric services
- Intensive weekly 1:1 meetings; research focused on assessing quality of life and predicting service use in a broad range of substance use disorders
- Work resulted in five submitted manuscripts, several of which are now published

Laboratory of Michael DiLuna M.D., Professor of Neurosurgery

Researcher

January 2020 – April 2022

- Researched outcomes and disparities in Neurosurgery using national database analysis techniques, mentored 4 junior lab members teaching statistics and analysis skills
- Work resulted in over a dozen published manuscripts

Laboratory of Peggy Mason Ph.D., Professor of Neurobiology

Researcher

June 2016 –June 2019

- Led studies of ‘helping’ behavior in rats under numerous types of stressors and anxiolytics
- Work resulted in first author publication in Science Advances
- Supervised and vetted experiments for all other laboratory undergraduates
- Work resulted in honors degree in Neuroscience; one of two 2019 Honors Neuroscience graduates

PEER-REVIEWED PUBLICATIONS AND INVITED COMMENTARY

Note: The below reflects accepted and published peer-reviewed papers (n=43) and invited commentary (n=2) only. Other papers in various stages of preparation and submission.

*Denotes Research Roundtable mentee

1. **Havlik, John L.**, Michael J. Murphy, Taeho Greg Rhee, Keith Humphreys, and Robert A. Rosenheck. Supervised machine learning enables identification of people with untreated substance use disorders using EHR-like data. *Nature Mental Health* (2026). *Accepted, pending publication*

WORK EXPERIENCE

Continuum Health Ventures

Venture Fellow

Feb 2023-Apr 2024

- Applied medical and business knowledge to lead reviews of promising digital mental health and AI mental health technology companies for potential venture capital investment
- Led meetings with company founders; performed due diligence with financials and published literature; several reviewed companies selected for investment

Yale Ventures

Blavatnik Fund Associate

2021

- Helped lead setup of Yale’s tech transfer/seed-round venture capital fund focused on biotechnology commercialization
- Work included identifying Yale psychiatrists commercialize scientific advances, prepping founders, financials, and slides for pitch meetings, helping multiple scientist-founders secure funding

Tsai Center for Innovative Thinking at Yale

Entrepreneurial Skill-building Coordinator

2020-2021

- Co-created “Storytelling with Slides” and “Storytelling with Spreadsheets” courses attended by 100+ people via Zoom; invited and coordinated with guest speakers; advertised to 40+ organizations on campus
- Created video tutorials of basic startup financial modeling with spreadsheets from storyboarding to filming; tutorials used by Tsai CITY in entrepreneurial accelerator programs

Managing Health Care in Complex Systems (HPM 688)

Teaching Fellow

2023, 2024

Under professors Michael Apkon, MD, MBA, and Leslie Curry, PhD

Investor (MGT 412, quantitative portfolio analysis)

Teaching Fellow

2023

Under professor Alexander Zentefis, PhD

Developing Healthcare and Life Science Ventures (MGT 657)

Teaching Fellow

2021, 2022

Under professors Ayesha Khalid, MD, MBA, and Christopher Loose, PhD

Health Economics & Public Policy (Econ 170)

Teaching Fellow

2021

Under professor Howard Forman, MD, MBA

Southsider Bicycle Security

Founder

2018-2019

- Founded bicycle security company; company named University of Chicago New Venture Challenge finalist
- Iterated from prototype to final hardware product and produced fully functional proof-of concept
- Wrote and implemented business plan; received investment offers from major Chicago-area angel investors

ACTIVITIES & SERVICE

Pre-Medical Mentorship

Volunteer Mentor

Jan 2021 – Present

- Mentor for students from my alma mater (UChicago) aspiring to careers in science and medicine; focus on first generation college and underrepresented students where I can have a meaningful impact
- Scientific mentor/medical school application review for: Sofia Uranga (Baylor), Montserrat Tijerina (Pritzker), Cameron Gudobba (Penn), Estelle Ndukwe (UW-Madison), Marissa Igunbor (Medical College of Wisconsin), Isabelle Preddy (Rosalind Franklin), Deanna Tang (Yale), Megan Lee (Virginia), Lydia Ososanya (KCOM), Kalea Hidalgo (current mentee), Kimberley Mercado (current mentee), Edwin Norris (current mentee), Henry Evenson (current mentee), Zaheer Munshi (current mentee), Caitlin Radovan (current mentee), Sayana Isaac (current mentee), Syed Wahid (current mentee)

Entering Class of 2019 President

Yale School of Medicine

2019 – 2024

- Advocated for student interests in class; planned class-wide outings and events
- Focused on community building within class and finding common goals between class, school leadership, hospital leadership, alumni, and other stakeholders

Liaison Committee on Medical Education (LCME) Independent Student Analysis Co-Chair

Yale School of Medicine

2022-2023

- Asked by Dean of School of Medicine to develop survey of 500+ student body and develop subsequent report to support re-accreditation
- Survey and subsequent report led to increased satisfaction among students with school, clarified administrative communication policies, 2 staff hired for medical school-specific mental health, \$100,000+ in upgrades to student life facilities

Health Professions Recruitment and Exposure Program (HPREP) Student Co-Coordinator

Yale School of Medicine

2020-2023

- Volunteer to teach underrepresented in medicine (URIM) and first generation-low income (FGLI) high-school students from the greater New Haven area about careers in medicine each fall
- Have taught 20+ students about health professions, edited college essays, fielded questions about health professions, directing to friends and colleagues with lived experiences as appropriate

Social Co-Chair

Yale School of Medicine

2019-2020

- Co-chair of committee in charge of planning monthly in-person and virtual social events for 500+ student body
- Managed \$8,000 budget for year as well as additional funds raised from students/alumni

Yale School of Mileage Co-Founder

Yale School of Medicine

2019-2024

- Started 60+ member running club for the School of Medicine
- Participated in training runs with other club members; participated in local races

Admissions Committee Member

Yale School of Medicine

2022-2023

- Interviewed 20+ students for admission to the School of Medicine
- Advocated with admissions committee for applicants while vetting for potential as future leaders in science and medicine

Physicians as Leaders Course Co-Director

Yale School of Medicine

2020

- Taught weekly for-credit course which brought together healthcare leaders (deans, writers, scientists, healthcare systems leaders) from across the country to speak to medical students in a speech followed by Q&A format
- 20 students participated in course with substantial waitlist

Digital Health Club Co-Chair

Yale School of Management

2023-2024

- Co-chair of 3-person committee in charge of planning monthly digital health events
- Past events included talks with established digital health companies as well as fielding pitches from student entrepreneurs

Dean of Education Search Committee

Yale School of Medicine

2020

- Advocated for student interests and reached consensus on best future leader of the Office of Education
- Work included CV reads, interviews, and debate within committee

Dean of Students Search Committee

Yale School of Medicine

2021

- Advocated for student interests and reached consensus on best future Dean of Students
- Work included CV reads, interviews, and debate within committee

Founding Volunteer Committee Member

Bradley Street Bicycle Co-op

2023-2024

- Applied technical knowledge in fixing bicycles, teaching others how to build and repair both electric and “acoustic” bicycles
- Member of volunteer collective self-government organization; organization tasked with running bicycle cooperative and 501(c)(3) nonprofit with mission to establish a more equitable New Haven through transportation justice
- Highlights of collective membership have included helping dozens of refugees receive free or low-cost bicycles through bike drive partnerships

HOBBIES & INTERESTS

Academic Interests: Data Science, Applied Machine Learning Innovation in Psychiatry, Psychiatrist-Scientist Pipeline, Academic Psychiatry, Mental Healthcare Systems Design, Healthcare Economics, Management Science

Personal Interests: Nature, Rural Policy, Micromobility (have built several one-of-a-kind vehicles), Bicycling, Running

LANGUAGE FLUENCY

English (Native), Spanish (Conversational), Python, R, Stata
